

**SAFETY  
TRAINING**

## **Confined Space > Entrant/Attendant** **Confined Space > Entry Supervisor**

The objective of this course is to train workers to safely work within and around permit-required confined spaces by following the provisions of their location's confined space program.

The curriculum is designed to meet OSHA regulations 29 CFR 1910.146. The class includes both classroom and hands-on activities.

The length of the class will vary based upon the existing knowledge of the students and the hazards they may encounter in their work environment.

### **Entrant and Attendant**

- Accidents Within Confined Spaces
- Hazards of Permit Spaces
- Causes of Confined Space Deaths
- Entry Permits
- Responsibilities
